

## Jetcut wins Diamond Offshore bid.

8 July 2012

Jetcut has been selected to complete pipe cleaning work on the Ocean America in the Timor sea later this month.

Preparations are currently under way for the mobilisation of a high pressure pumping equipment, vacuum recovery unit and specially designed pipe entry equipment to complete the work.

A spokesperson for Diamond said "We were very impressed by Jetcuts contingency planning and overall professionalism at the proposal stage. That, and the fact that the price was very competitive won them the work."

Innovation for industry
